SUMMARY

I am a full stack web developer leveraging my background in digital marketing to create a high-quality experience for customers using web applications. My passion is to develop projects that appeal to all users, prioritize user friendliness, and easy navigation to maximize value. Developing these skills and passion required me to be communicative, task-organized, and learn to manage my time wisely.

TECHNICAL SKILLS

Languages: HTML5, CSS3, Javascript, Node.js, Mysql, MongoDB, and React.js.

Applications: github, figma, VScode, Heroku, and Insomnia.

PROJECTS

Password Generator | GitHub: <https://bit.ly/34WNdtJ> | Project: <https://bit.ly/33Cv5EV>

- This is a Password Generator that generates a password of 8 - 108 characters. You have the option to include or exclude lower case letters, upper case letters, numbers and symbols.
- I solely developed this project.
- Languages: Javascript, HTML5, and CSS3. | Tools: VScode and github.

MyNightTho.me | GitHub: <https://bit.ly/3l6p6qY> | Project: <https://bit.ly/3l6p6qY>

- Mynighttho.me is a web application aimed at helping eliminate decisions when it comes to planning your night. Using the application allows you to generate both a recipe for dinner as well as a trending movie to watch.
- I contributed to creating the html documents and styling them. I was also involved in a small part of the javascript by creating the fetch function for the api.
- Languages: jQuery, HTML5, CSS3 | Tools: VScode, Figma, and github.

Note Taker Express | GitHub: <https://bit.ly/3p2iTEI> | Project: <https://bit.ly/3sU8lmP>

- This is a note taking application that lets you save, edit, and create new notes when needed.
- I solely developed the application
- Languages: Express.js, HTML5, Bootstrap, CSS3. | Tools: VScode, heroku and github.

EXPERIENCE

Administrative Assistant(*part-time*)

2018 – Current
Statesville, NC

Dandy Light Traps

Produced and built orders to be distributed to customers around the world. Supervised and organized inventory using Microsoft office and QuickBooks for the following years. Assisted in executing the general operations of the business and optimized web design through HTML5 and CSS3.
